

2023 MOMENTUM Pre-Conference Agenda (gGastro® & gPM™)

Join your Training Consultants, Medical Directors and Business Consultants for an interactive day of learning. During this one-day training event, you're able to decide your own learning path through a curated agenda of role and product-based training sessions. Select the topics that are the most meaningful for you! On top of these training sessions, there will also be interactive labs to work with your peers and ModMed® experts. See session topics and descriptions for more information!

Note: Certain sessions will be offered multiple times to target certain medical specialties, roles and/or size of practice.

Category Legend

Category	Description
Back to Basics	Fundamental training on how to configure and/or utilize a product or feature. Great for beginners who want to learn what it is, how to use it, and the value it can provide.
Advanced Product Utilization	Advanced training on a product or feature. These sessions will focus on how to leverage the newest and more complex functionality to improve and streamline workflows.
Operational Optimization	These sessions go beyond product training to discuss how to improve business operations through team development, reporting and much more.
Discussion & Collaboration	Open forums to ask questions, collaborate and share advice on product utilization and workflows.
