

Pre-Conference Agenda:

ModMed® ASC

Join your ModMed® training consultants, medical directors, and business consultants for an immersive **MMASC Advanced User Workshop** designed for **clinical users** seeking to enhance their skills in workflow optimization and best practices. This hands-on training will delve into the newest features ModMed has to offer, strategies to streamline processes, and tips to ensure you're leveraging the platform for maximum efficiency. Don't miss this opportunity to take your knowledge to the next level!

Pre-Conference Training Workshops

Getting Started & Year in Review

We are excited to share the latest enhancements to MMASC this year! Explore the designed features that truly elevate your MMASC experience.

Category: Advanced Product Utilization

Configurations & Template Builder Fundamentals

Discover how to effectively use clinical configurations and the template builder to customize and streamline your workflow. Our in-depth review will equip you with the knowledge and skills needed to maximize the potential of these powerful tools. Join us to gain valuable insights that will enhance your productivity and efficiency.

Template Builder

In this session, we will conduct a thorough examination of the template builder and its functionality. We will delve into the process of modifying existing templates, focusing on how to make specific changes to enhance their design and usability. Additionally, we will discuss the steps necessary to update template sets, ensuring that all components remain cohesive and aligned with your current needs. By the end of this session, you will have a clear understanding of how to effectively use the template builder to improve and maintain your templates.
